

*Thank you all so much for the beautiful flowers. They look spectacular in the new room.*

*I'm sorry I missed the photo session because I wanted to let you know how much I'm enjoying this space. It is bright and cheerful even on the drabest day.*

*I know there were more than a few problems associated with this project and I imagine there were times when you all wished you had nothing to do with it. But, it was worth it and it would not be the wonderful addition it is without the dedication and craftsmanship that is part the commitment you made to us at the very start.*

*Thanks again and please stop by and see it as the exterior gardening progresses over the spring and summer.*

*Gina McLaren*
